### ANNUAL MEETING.

THE ANNUAL MEETING OF THE STOCKHOLDERS OF THE Reno Water, Land and Light Company will be held at the office of the company in Reno, Nevada,  
Saturday, May 13, 1899,  
At 10 o'clock A. M. for the purpose of electing a Board of Trustees for the ensuing year and the transaction of such other business as may properly come before the meeting.  
W. L. BECKEL, Secretary.

"Beauty and Power."  
The secret of a woman's power is in her complete womanliness, both physical and mental. This does not mean perfection of outline nor regularity of features. It does not mean wit, nor talents nor accomplishments. It means that physical attractiveness that comes from perfect bodily condition and the bright, happy cheerfulness of disposition which only complete health can insure.  
A woman with a bright eye, clear complexion, mantling color in the cheeks and buoyant elastic step and manner has a natural attractiveness that no artificial agency can counterfeit.  
A woman who is afflicted with the mortifying misfortune of a dull, sallow, pimply complexion or that listless movement and attitude which provokes only contempt and revulsion in the opposite sex ought to avail herself of the purifying, invigorating power of Dr. Pierce's Golden Medical Discovery, which makes a strong, healthy stomach and digestive organism; purifies the blood and imparts a natural stimulus to the excretory functions; insures healthy weight, clear skin, bright eyes and the animated manner and bearing of perfect health.  
A lady living in West Virginia, Miss Anna Callow, of Kyger, Boone Co., writes: "It is with pleasure I write you after using a few bottles of Dr. Pierce's 'Favorite Prescription' and 'Golden Medical Discovery,' and I think them valuable medicines for female troubles and weaknesses. I could hardly go about my work I had such inward weakness and constant misery in the womb. It worried me so that I would give out in walking a short distance. I had a bad cough and my lungs hurt me all the time. I got very thin, my complexion was bad, and my eyes would get so heavy in the evening they seemed stiff in the lids. I could hardly move them. Many persons were alarmed about me. I looked so bad and had such a cough, they were afraid I would go into consumption. I felt so badly every day that I had no life about me. I used only five bottles in all. I shall ever speak in praise of your grand medicine. They are blessings to suffering females."  
Another good thing to have in the house is a vial of Dr. Pierce's Pleasant Pellets. They cure biliousness and constipation and never gripe.

No Deadheads There.  
I heard a good story that comes from a little town in the northern part of the state. Among the members of the Methodist church at that place is an old railroad conductor who has been retired from the business for ten years or more. During the morning service at his church not many Sundays ago the minister to assist in taking up the collection—one of the stewards who usually helped in that work being absent.

The retired railroad started down the aisle with the contribution basket and passed it around like an old hand at the business. Everything passed off smoothly until he came to a good old brother who had nodded himself fast asleep, and just as he was about to pass by him he was suddenly overcome by the force of habit acquired in his railroad days. Giving the sleeping brother a dig on the shoulder with the basket, he blurted out  
"Ticket, please!"

### HER OBJECT LESSON.

She was very pretty, very witty, very sarcastic. Her world had a wholesome dread of Mrs. Trelawney's tongue. She had just intimated a desire for an ice, and her attendant satellites had dispersed at once, each eager to be foremost in the quest.  
She had had a busy day, and it was pleasant and cool there behind the palm. She only wished that people would not whisper somewhere near. If only they were aware how much farther a whisper carried than an ordinary tone! And while she meditated an epigram on this subject she opened her eyes and looked round impatiently for the whisperers.  
There was a particularly ineligible corner near Mrs. Trelawney's snug retreat, a three cornered, low backed seat, in the full glare of the light and unpleasantly close to an intrusive and spiky cactus.  
Hither had retreated a poor cousin of the hostess, a little girl of 17, under-dressed and pale faced, conspicuous only for a very new and shining wedding ring. She had been alone most of the evening, and now it was she and her boy husband whose whispering had disturbed Mrs. Trelawney.

"Darling, are you enjoying yourself?" whispered the boy husband.  
"So much, dear!" answered the little girl enthusiastically. "It's all so pretty and so amusing to watch. I've never seen anything so pretty in my life!"  
"I've been helping Lady Lucy. She asked me to take some old ladies down to supper," the boy husband went on with a comical importance. "You're sure you are not dull here all alone?"  
"Dull? Oh, dear no!" cried the little girl, opening wide eyes of amazement. "Oh, there's Lady Lucy looking at us, dear. I expect she wants you again."  
The boy hurried off again, proud and elated, and his little wife sat smiling after him from her corner. Mrs. Trelawney looked sharply from one to the other. "I wonder how long that state of things will last?" she meditated cynically.

## LET'S GET A MOVE ON.

Our evening contemporary publishes a list of names of prominent business men of Reno, as proper material for the formation of a Board of Trade, or some such organization having in view the betterment of the business conditions of the town. All of the persons mentioned are public spirited citizens and the list in itself would represent such a membership as would compose a most valuable organization for the proposed purpose. But it could be enlarged, as it doubtless would be, if such a movement was started, by the addition of perhaps twice as many more who would cheerfully contribute not only their moral, but their financial support to so worthy and profitable a cause.

That some public organization of the kind is needed here is beyond all question, and that it would be profitable with satisfactory results is equally certain. In the first place the lack of such indication of public spirit and enterprise in a town of the size of Reno is anything but a recommendation to people from abroad, who are looking for favorable places for investment or residence. Letters are constantly being received here from strangers making inquiries concerning our climate, resources, population, public institutions, and a hundred and one other things which the correspondents wish to take into consideration before deciding upon making investments or locations among us. These letters are generally addressed to the newspapers or individuals, but if a responsible public improvement organization existed, such communications would be sent to its President or Secretary and the information furnished from such a source would have far better effect than from individuals personally unknown to the inquirers.

While it is impossible to give in detail the matters that could be properly and profitably considered by such an organization, the JOURNAL is confident that before a three-months' existence its members would be astonished at the amount of good work completed, and wonder that they had so long delayed the necessary combined movement for its accomplishment. If a few energetic and public spirited persons will take the matter in hand they can unquestionably interest a sufficient number of our business men and taxpayers to form at least the nucleus for a splendid organization, and when once under way its membership will increase until it comprises the bulk of the public spirit and enterprise of the town. Why wouldn't it be in order for our County Commissioners, who are also our town dads, to call a meeting at the court-house to consider the subject?

SOUTH DAKOTA has closed out her divorce-for-the-asking business and there is now no open door to easy egress from the marriage state. It is a matter of wonderment how Nevada's last legislature came to overlook such a splendid opportunity to add another to our State's industries. With licensed prize-fighting, a State lottery and a divorce bureau, Nevada could afford to snap her fingers at the outside world and no longer bother her head about irrigation, silver reclamation, sugar beet culture or other such trifling matters as are now engaging the attention of the plain, plodding people of the commonwealth. Governor Sadler should lose no time in calling a special session for the purpose of rectifying this important omission.

QUAY has escaped the State's prison by an acquittal verdict of the jury, and the same day (yesterday) was appointed by Governor Stone United States Senator until the next Pennsylvania legislature meets. The Senate, however, will have to reverse a dozen or more of its decisions if it admits him to a seat, as it has always held that when a legislature fails to elect, the Governor has no power to appoint. It's diamonds to dumpings, however, that the Senate makes an exception to the rule in the case of the champion political rascal of the nation.

AN admirer of Bryan said yesterday to the writer, that the JOURNAL ought to keep standing at the head of its editorial columns a certain sentence in one of the Silver Champion's recent letters. Mr. Bryan has written and said so many good and wise things that it would be hard to decide which is the best, and to keep standing half of his sayings which deserve such distinction would require a sheet a hundred times the dimensions of the JOURNAL.

PARAPHRASING the words of the immortal bard—the funeral baked meats of the ten-dollar-a-head banquet of 1899 may be used to set forth the marriage table of 1900, the high contracting parties being the following of Belmont and the Republican party. The betrothal was announced in 1898.

THE McKinley administration is extremely anxious to get out of the embalmed beef business. The accounts of the concern, however, are in such a complicated condition that it will be impossible to settle them up and close the shop before the fifth of November, 1900.

THE Appeal said on Thursday: "We will publish no paper to-morrow and the editor will plant a tree." It was probably a willow, and planted over the grave of the Silver party of Nevada.

## BREVITIES.

John McQuarters, a pioneer of Carson, died last Wednesday.

Internal Revenue Collector Charley May is on an official trip to the eastern part of the State.

A shipment of five carloads of raw silk passed east last Thursday night. It is valued at a million dollars.

Walter Morton left yesterday morning for Plumas Junction, Cal., where he expects to remain for several weeks.

Ambrose Bierce, after a period of thirty-five years in newspaper harness, announces his withdrawal from the press.

The Wheelmen's baseball club of Reno challenges any ball team in the State. Here's a fine opening for the Elko club.—Independent.

Go to the Washoe Lunch Counter for dinner to-day. Messrs. Block and Clausen have always made a specialty of good Sunday dinners.

A notice to the stockholders of the Sherman Gold and Silver Mining Company is published in another column, to which those interested are referred.

F. McKee, who was called to Anaconda, Montana, the other day by the illness of his sister, Mrs. Jessie Finlayson, returned yesterday morning. He reports Mrs. Finlayson in a very precarious condition.

The JOURNAL is reliably informed that an assistant matron is to be added to the force at the Nevada Hospital for Mental Diseases. Provisions for deputy supervisor and deputy bookkeeper should be next in order.

Charles Brockett, a "scab" engineer who took the place of a labor union man at the Daly-West hoisting works, Park City, Utah, was forced to leave the camp by the miners, who refused to be lowered underground by Brockett.

Thirty-six thousand pounds of borax were shipped from Winnemucca yesterday. A similar shipment is made every two weeks. Winnemucca is the natural shipping point for a great territory. The borax, for instance, comes from Oregon.—Silver State.

Constable J. F. Triplett of Elko was resisted by a tough character, whom he was arresting a few days ago, and had to use other than moral snation to induce the fellow to accompany him to the lockup. The fellow swore out a warrant against Triplett for using undue force and violence. Upon hearing the evidence the Justice discharged the Constable, and the decision meets the approval of all the good citizens of Elko.

## Trained Animals as Firemen.

Norris Bros' Big Trained Animal show will exhibit under their large tent at Reno Wednesday April 26th and give performances at 3 and 8 p. m.

The company is said to be the largest of its kind in America, numbering over two hundred animal actors, all of which have been trained to take parts in a long and varied program. Great care and kindness has been exercised in the education of these little animals and they will introduce many new acts. Perhaps the most exciting feature of the performance is the work of the animal fire department, which consists of a miniature hook and ladder truck, hose reel and fire engine, each drawn by pretty Shetland ponies and operated by dog and monkey firemen who enter a burning building by ascending ladders, and after rescuing a number of their fellow creatures, carry out the household effects and finally extinguish the fire. The fire department will be seen on dress parade at 11 A. M., together with the balance of the company, including the smallest performing elephant in America and the only educated zebra in the world.

## The Sheep Prospect.

Sheepmen from all sections say that the crop of lambs in proportion to the supply of breeding stock will be unusually large this year. Ewes are surprisingly prolific, twins and triplets being more common than single births. Now, if the weather is favorable and this crop of lambs is successfully raised, there will be no occasion to be alarmed at a shortage in sheep. Throughout the west and southwest conditions are quite satisfactory, with the usual exceptions where feed was scarce and the weather unusually severe.—Silver State.

## Reno Granite.

Last evening two dray loads of dressed granite arrived from Reno for Commissioner Hawks to be used for capping the plot in the Catholic cemetery where his late wife is buried. The blocks are very massive, two of them being ten feet in length. The granite is the best quality and is from a quarry located five miles west of Reno. It is absolutely free from iron, and will therefore not stain by exposure to the weather.—Virginia Chronicle.

## In Memoriam.

In memory of our fallen heroes, one of whom has been brought back only a few days ago by the kindness of the government, so he may be buried by relatives and friends and rest in the soil of his adopted country, the Palace Dry Goods House will reproduce in one of the large show windows the Oregon, the world renowned battle ship which helped to avenge the destruction of the Maine.

## Bad News.

S. Summerfield received yesterday morning the sad news of the death of his brother, Joseph Summerfield, who died at Lexington, Kentucky, yesterday.

## MAYHUGH IN TROUBLE.

A Hot Old Time at the Shoshone Reservation.

Mr. John S. Mayhugh, the Bryan shouter until after the Presidential election and a solid McKinley man after the latter was elected, and who was appointed superintendent of the Shoshone reservation, is having considerable trouble on his hands, as appears from the following dispatch from Winnemucca:

"Word has been received of a general fight which took place on the western Shoshone reservation last Wednesday. It seems that one J. S. Mayhugh has been making it unpleasant for a young lady who is teaching on the reservation, with a view of having her discharged. A German, who is a friend of Mayhugh, interfered with the young woman's work on Wednesday, and she drew her revolver and ordered him off the reservation. The reservation doctor appeared upon the scene at this point and took a shot at the German, the bullet just grazing the German's side. Mayhugh ran to the German's rescue and the doctor shot him in the head, inflicting only a slight wound. The Indian police took part in the fight which followed, and the shooting became general. It is learned that several arrests have been made. The names of neither the teacher, the physician nor the German can be ascertained here.

"Mayhugh was reappointed agent at the reservation about a year ago. The circumstances of Wednesday's row have been telegraphed to the Secretary of Interior."

## Important Mining Sale Reported.

It was reported here yesterday on what was considered reliable authority that a sale of a group of seventeen mines at Pyramid district had been made for \$150,000. The sale was effected by Antone Dragovich of Reno, to whom the property had been bonded by the owners, and the purchasers are an English company having their American headquarters at Chicago. The property was owned mostly by residents of Reno, among whom are Alvaro Evans, Jake Becker, Henry Riter, Judge Haydon and others whose names the JOURNAL did not learn. If the report proves correct, as seems most probable, active operations will undoubtedly be soon commenced at Pyramid. It was known some time ago that experts for the purchasing company had made a thorough examination of the mines and would report favorably upon them. There has been considerable work done in the district and some large bodies of rich ore developed. The property is in Washoe county.

Mr. Bonham is thoroughly conversant with the business of both the Recorder's and Clerk's office, and with his experience is thoroughly qualified to search records or perform other work of a similar character with correctness and dispatch. He is also prepared to do a general insurance business, being agent for a number of first class insurance companies, among them being the Phoenix Assurance Company of London, Manchester of England and Orient of Hartford, Conn. The JOURNAL bespeaks for Mr. Bonham a liberal share of business and have no hesitancy in stating that his work will give entire satisfaction.

## Tired of Life.

Early last evening one of the frail sisterhood, known as "Birdie," took a dose of opium or morphine at the "Orchard," with the evident intention of ending the life, which she felt was not worth the living. Medical aid was promptly summoned, and Drs. Hogan, Lewis and Phillips applied all of the remedies for opium poisoning, but at a late hour last night she had not recovered consciousness, and the indications for her recovery were decidedly unfavorable.

## More Troops for Manila.

Two trainloads of soldiers, lately recruited into the regular army from various eastern States, passed through Reno yesterday morning on their way to San Francisco. They number 600 in all and are not yet assigned to any regiment. The assignment will be made at the Presidio, after which the troops will depart for the Philippines.

Has Not Received His Fortune Yet.

A letter received at Elko from Charles Hanks says he arrived safely in San Jose, but has not reached an understanding in the estate left him.

Hanks, it will be remembered, recently found himself heir to a large fortune in California.

## Feroocious Fraternity of Coyote and Cat Scalpers.

Among the several bills which were evidently rushed through without material consideration at the late session of our State Legislature was one which relates to the bounties given for the extermination of noxious animals, such as wildcats, coyotes and mountain lions. The clause relating to the amount of bounty to be awarded for each animal killed is very good, but it seems that those which relate to the counting of scalps by county officials and the reels of red tape involved before a claimant is paid his bounty were made as absurd as possible by some practical joker who wished to see how far the legislature would go toward making law out of non-descript nonsense.

The scalps are first counted and the ears cut off by the Justice of the Peace in the district where they are killed. They are then sent to the County Clerk, the Sheriff and the District Attorney in a round-about eccentric manner, and are counted and tallied by each before the claim may be presented to the Board of Commissioners, thence to the Clerk and lastly to the Auditor.

Owing to involved tangle of cardinal tape, the above named officials have organized themselves into a feline society called the "Feroocious Fraternity of Coyote and Cat Scalpers." Clerk Porter is the "Chief Yelper," Sheriff McAnis is "Kat Kounter and Keeper of the Whiskers," and District Attorney Williams "Post-Mortem Scratcher."

The laudable aim of this society is to endeavor to pay all claims for scalp bounties within two years after they are passed.

## The Deadly Grip.

Is again abroad in the land. The air you breathe may be full of its fatal germ! Don't neglect the "Grip" or you will open the door to Pneumonia and Consumption and invite death. Its sure signs are chills with fever, headache, dull heavy pains, mucous discharges from the nose, sore throat and never-let-go cough. Don't waste precious time treating this cough with troches, tablets, or poor, cheap syrups. Care it at once with Dr. King's New Discovery, the infallible remedy for bronchial troubles. It kills the disease germs, heals the lungs and prevents the dreaded after effects from the malady. Price 50 cent and \$1.00. Money back if not cured. A trial bottle free at S. J. Hodgkinson's Drug Store.

## The Peavine Mines.

Gilbert J. Roote, a mining man from San Francisco, arrived in Reno yesterday and will go to Peavine to-day to examine and report upon mines in that district, owned by Captain Griffin, Henry Riter and others.

The lodes in Peavine are large and well defined and have yielded considerable quantities of paying ore, requiring only systematic working to make them paying properties. It is evident that the long neglected mines of Washoe are beginning to be appreciated and are coming to the front. Who knows but Washoe will yet become as noted for her mineral as for her agricultural resources?

## The Sure La Grippe Cure.

They are guaranteed to cure or price refunded. For sale at S. J. Hodgkinson's Drug Store, only 50 cents a bottle.

## What of It?

The Carson News says that Sam Davis and his relatives will draw \$23,160 out of the State Treasury and the county of Ormsby during the next four years.

Well, suppose they do. What does it amount to among so many of us? It's only a little over half a dollar apiece for each of our 40,000 population in the State, and we have known the News editor to lose twice as much as his share on a four flush.

## AN ACCIDENT TO NO. 4.

The first section of No. 4 (regular passenger) came near having a serious wreck between the asylum and reduction works, just east of town, last night. The middle driving wheel on the right hand side of engine 1811 broke from the axle and disappeared in the enginebrush. The connecting rods on the first and third drivers thrashed around, tearing off the running board and damaging the cylinder and pipes.

The engineer, Gene Clarke, stayed manfully at his post until he brought the train to a stop. His fireman, Mr. Wolters, ably seconded him, and they had the satisfaction of saving the entire train from a most disastrous accident. A freight engine was attached to the train and left Reno two hours and a half late.

## The Coon Dance.

In every city and town where coon dances have been given they have made a great hit, as they are something new and out of the general run. Reno is a little behind with her coon party, but the band boys will profit by the experience of others and make the night of the 28th one long to be remembered by all who attend. Hastings' band never does anything on a small scale, and everyone knows what grand music they can furnish. When you see the parade in the evening it's a sure thing you will make up your mind to go—that is, if you have not already done so.

## Why Volunteers Are Not Discharged.

It is claimed that the cause for holding the volunteers in the Philippines is that the President fears the political consequences of a call for more volunteers. The officers of the Thirtieth Minnesota Regiment sent a telegram to the Governor of that State saying that the regiment must be brought home at once, giving as a reason that their term of service had expired. The officers of the War Department at Washington say it was the general belief that the men of the Minnesota regiment knew their rights and were intent upon having them.
